

May 10-18, 2008

2006 CWSF – Saguenay, Québec

What is the Canada Wide Science Fair (CWSF)?

- Established in 1962 in Ottawa, the CWSF is the largest extra-curricular youth-oriented science and technology activity in Canada.
- The purpose of the CWSF is to encourage young Canadians to pursue excellence in science and technology.
- The CWSF is a project of the Ottawa Regional Science Fair (ORSF), a registered charity that has over 40 years of experience organizing annual science fairs.
- Approximately 25,000 students in grades 7 – 12/Cégep compete nation-wide at 100 regional science fairs for 450 spots at the CWSF.
- 2008 marks the first time in over 40 years that the Fair will be held in Ottawa.

What happens during the Fair?

- More than 1,000 delegates attend the fair, including 450 Canadian students, international students, parents, teachers, and industry and government representatives.
- Students present their projects and compete for medals, prizes, and scholarships worth approximately \$360,000. Judges include top scientists and industry experts.
- During the week long fair, the general public is given the opportunity to view the projects, and students take part in a wide variety of activities, such as visits to local museums, university and industry research labs, and wildlife conservation areas.

How is the Fair run?

- The CWSF is organized by a volunteer host committee and run under the guidance of the Youth Science Foundation (YSF) Canada.
- YSF Canada is a national, non-profit, registered charitable organization committed to engaging and supporting Canada's young scientists.
- The budget required for the 2008 CWSF is just over \$1 million; over half the money will be raised through sponsorship, the remainder through registration fees.

CWSF 2008 Partnership Grid

Benefit	Contribution				
	Platinum \$50,000+	Gold \$25,000- \$49,999	Silver \$10,000- \$24,999	Bronze \$5,000- \$9,999	Supporter \$1,000- \$4,999
